AdministrationFunctional Principle of Administration

- A) The organization of the school staff shall be unified and directed by a single executive head -- the Superintendent of Schools.
- B) Staff organization shall be based upon a functional analysis of the services to be rendered by the school system.
- C) The Board of Education recognizes the following services or functions within the school system:
 - 1. Policy making and legislation -- functions of the Board of Education carried on with the aid of the Superintendent of Schools.
 - 2. Administration -- a function of the administrators on all levels of the school system, unified and coordinated through the office of the Superintendent of Schools.
 - 3. Instruction -- a service performed by teachers, counselors and librarians aided by administrative and certificated employees and their assistants.
 - 4. Plant operation, maintenance, and construction -- functions under the direction of the Superintendent of Schools.
 - 5. Business affairs, to include accounting, secretarial, and clerical -- services performed by secretaries, clerks, accountants, and others under the direction of the Superintendent of Schools.
- D) All administrators will be members of the administrative council, are expected to function as an effective administrative team, and shall be called upon from time to time to make reports to the board of education.

Date of Adoption: August 10, 2015

AdministrationElection of Administrative Personnel

All administrative positions shall be authorized by the board of education upon the recommendation of the superintendent of schools. All administrators shall be properly certified so as to conform with standards established by the Nebraska State Board of Education and shall have such training and experience as deemed appropriate by the superintendent of schools. Unless otherwise indicated, administrators are assigned, supervised, and evaluated by the superintendent of schools. Except for an administrator who may also be categorized as a teacher, the superintendent of schools will share evaluation summaries with the board of education. If the superintendent of schools intends to recommend that the board of education consider amending or terminating the contract of any administrator, said administrator's evaluation will be withheld pending its possible introduction at a board hearing on the matter.

The rehiring and compensation package (salary/benefits) for the Superintendent shall be considered at the regular December meeting of the Board of Education. The rehiring and compensation package (salary/benefits) for the Principal shall be considered at the regular March meeting of the Board of Education. Action on such rehiring and compensation packages shall be taken by the Board of Education on or before April 15 of each year. The dates for action are subject to modification in the discretion of the Board of Education.

Date of Adoption: August 10, 2015

Administration

Evaluation of Principals and Other Certificated Administrative Personnel

1. Objectives

The Board recognizes that the roles of a school superintendent, principal, assistant principal, and other certificated administrative personnel of the School District (hereinafter collectively referred to as “Administrators”) are varied and complex requiring an appraisal process that accurately measures performance and provides support for the continued growth and improvement of the Administrator. The general job description and an evaluation instrument with performance standards for each administrative position shall be promulgated under the direction of the Superintendent of Schools and approved by the Board of Education, and provided to the affected Administrator. The appraisal process for each Administrator and administrative position shall serve these purposes:

- a. To raise the quality of administration and educational service to the children of our community.
- b. Clarify for the Administrators their respective role in the school system as seen by the Board.
- c. Clarify for all Board members the role of the administration and the immediate priorities among each Administrator’s responsibilities.
- d. Develop harmonious working relationships between the Board and administrative supervisors and each Administrator.
- e. Aid the individual Administrator to grow professionally.

The evaluation of administrative performance is intended to be a cooperative and continuing process designed to improve the quality of the educational program.

2. General Procedures

The formal Administrator appraisal is based primarily upon the procedures and processes defined below. The procedures provide for a consistent and equitable appraisal of important aspects of the Administrator’s duties and responsibilities. They do not, however, specifically include the total range of expectations of the effective performance of the administrative duties of each administrative position or the Administrator assigned to such position. As a result, additional data and information related to the respective administrative role may be utilized to generate a comprehensive appraisal.

3. Appraisal Cycle

Probationary Administrators shall be observed and evaluated at least once each semester, except the Superintendent, who shall be observed and evaluated by the Board of Education once each semester in the first contract year of employment, and once per year each contract year thereafter. Permanent (tenured) Administrators shall be evaluated at least once each school year. Observations and evaluations of greater frequency or number than required may be conducted and made at the request of the Administrator or in the discretion of the appraiser.

The appraisal cycle and appraisal process for a permanent Administrator is intended for the direction of the responsible appraiser. A failure to complete evaluations within the designated cycle or in the manner directed by this policy shall not give the permanent Administrator rights, but may be addressed in evaluating the responsible appraiser's performance.

The entire instructional period for Administrators cannot be defined in terms of an instructional period and shall be satisfied by the actual observation of an Administrator's work for no less than fifty (50) minutes (cumulative) during the time periods being evaluated.

4. Appraisal Process

The appraisal process is the responsibility of the Administrator and the Administrator's immediate supervisor as determined by the Board of Education and/or the Superintendent of Schools, provided that the supervisor of the Superintendent shall be the Board of Education. In the event the responsible appraiser has not initiated the appraisal process within the time or in the manner required, the Principal has the responsibility to timely notify the responsible appraiser.

Performance standard categories set forth in the evaluation instrument for each administrative position, as adopted and amended from time-to-time, shall serve as the basis for the informal job-target-based formative appraisal and the formal summative appraisal. During the formal summative appraisal, data is collected as required to provide a basis for appraising the performance categories. Data collection may include, but is not limited to, surveys (formal or informal information gathering from staff, students, parents, community members, and other Administrators), statistics received by routine reports; statistics generated by reports specifically designed for the appraisal; review of sample written materials of the Administrator (such as, for example, a Principal's evaluations of teachers) and observations of performance. The Administrator may be assigned responsibility to assist with data collection and shall have the duty to provide such assistance as is requested.

The collected data along with the professional opinions of the responsible appraiser shall serve as the basis for the final appraisal report.

5. Final Formal Summative Evaluation

The appraisal process culminates in a final formal summative evaluation. The final formal summative evaluation consists of a rating of each performance category identified in the evaluation instrument, identification of whether the Administrator's performance meets or does not meet district standards of performance, a list of deficiencies in the Administrator's performance, suggestions and plans for improvement to assist the Administrator in overcoming such deficiencies, and follow-up evaluations as appropriate in order to correct performance below district standards. As a professional, the Administrator may be assigned responsibility to provide suggestions for improvement plans or similar job growth strategies and shall have the duty of complying with such requests. Further, in the event improvement plans or other similar performance measures are implemented, the Administrator shall have the duty to comply with such plans. The Administrator is expected to be cooperative, professional, and to exhibit a

willingness to improve performance and to accept the constructive criticisms and suggestions of the appraiser.

See: Evaluation instruments for each administrative position.

Administration

Administrative Actions in Emergencies

In any crises or emergency circumstances, the immediate concern is securing the safety and welfare of students and staff. A second priority, if appropriate, will be the securing and salvaging of property. The superintendent of schools will be in charge of administering and monitoring any emergency event, except that if the situation is confined to a particular building, the principal will be in charge with the superintendent of schools advising on necessary decisions. Once the nature of the emergency is determined and the immediate concerns for students and staff are addressed, the superintendent of schools will:

1. Alert board members.
2. Decide whether or not to convene or postpone school, with attendant adjustments in transportation and activity schedules.
3. Determine the need to involve other agencies and/or officials (e.g., Police, fire and emergency personnel, counseling services, insurance representatives). All administrators will maintain an accessible, emergency phone list.
4. Notify students, staff, and patrons via appropriate media.
5. Report on the incident at the next regular or emergency board meeting and evaluate the effectiveness of the response strategy.

Inclement Weather: In the event of bad weather, or other circumstance in which the safety of students would be endangered by attending school, the superintendent of schools will make the decision to cancel or delay the start of school and whether or not staff are to report for duty. When school is canceled, ordinarily all after-school activities will be canceled. Any decision to the contrary must have the superintendent of school's permission and include provision for communicating with all affected parties in a timely manner. Weather information will be sought from current weather station reports and consultation with the transportation director and other area superintendents. The decision to cancel school will be made as early as possible. A system will be developed to alert the staff, and the superintendent of schools shall inform appropriate television and radio stations and request that they make the appropriate announcement to the local media. The board of education will determine in the spring whether time missed for inclement weather or other emergency school closings should be made up.

Fire, Tornado, Gas Leaks: Principals shall design and keep current drill and evacuation plans, to include emergency shelter, and publish them in staff and student handbooks. Teachers will post said plans in their classrooms and educate students on their implementation.

Student or Staff Deaths: When notice is received of a student or staff death, the involved administrators will inform and consult with the superintendent of schools. Ordinarily school will be convened; however, appropriate modifications in daily school activities which are sensitive to the incident will be made. Further, if deemed necessary, a counseling intervention team will be made available, in conjunction with school counseling services, to provide assistance to students and staff.

Substitute teachers will be employed if deemed appropriate. School officials will attempt to balance funeral accommodations with the need to convene school with minimal disruption.

Civilian Emergencies: The school buildings are available as emergency shelters if needed. School officials, to the extent possible, will cooperate with other civil authorities, including local, area, and state law enforcement agencies and fire department officials, in making school facilities available during any civilian emergencies.

Date of Adoption: August 10, 2015

AdministrationStaff Handbooks

The Superintendent shall have the authority to establish staff handbooks. The handbooks shall define the duties of all special school officers and employees; define responsibilities, duties and policies concerning the relation of personnel to the administration, the community and the students; shall list the responsibilities of the administration to the staff together with staff welfare measures; and shall list general policies pertaining to students. Staff handbooks shall, when approved by the Board, have the effect of Board policy and control over any conflicting Board policy adopted prior to the staff handbook in the event of a direct conflict.

All staff shall be furnished or be provided access to a handbook at the beginning of each school year. Should a circumstance present itself that is not covered by the provisions of the staff handbook applicable to a specific employee, reference should be made to Board policy.

Date of Adoption: August 10, 2015

AdministrationAttendance at Professional Growth Meetings

The board of education expects its administrative staff to be informed on contemporary educational issues and therefore encourages active participation in the respective professional administrative organizations, including state, regional, and national associations for the superintendent and principals. Accordingly, the Board of Education authorizes and will fund, within budgetary limits, attendance to state, regional, and national conferences sponsored by professional administrative organizations, curriculum groups, institutions of higher education, legislative bodies, and other agencies having a relationship which is in agreement with the school district's educational objectives.

Administrators' attendance at national conferences is subject to board approval. If a first-year administrator is granted permission to attend a national convention, expenses for such attendance shall be allowed, provided that should the administrator not return for the next school year the cost of the administrator's attendance at such national convention shall be deducted from the administrator's last pay check. Any convention expenses already paid for a first-year administrator who chooses to terminate employment at the end of the contract year shall be refunded by that administrator to the district.

Approved national conventions include: the American Association of School Administrators, the National Association of Elementary School Principals (NAESP), the National Association of Secondary School Principals (NASSP), the Association for Supervision and Curriculum Development (ASCD), the American Association of School Administrators (AASA), the National Association of School Boards (NASB), or other conferences approved by the Board of Education. Any expenses allowed shall be consistent with those allowed through the guidelines approved by the Board for the Superintendent.

The Superintendent and the Principal, when approved to attend a national convention, shall be allowed expenses which shall include registration fee, transportation, lodging, meals and incidentals not to exceed the amount specified in the contract of such administrator. In the absence of such contractual provisions, the expenses allowed shall be the amount set forth in the "Coffee Act Policy," Policy No. 8231. Ticket stubs, receipts, and other records pertaining to expenses incurred shall be submitted.

The expenses of the spouse of the administrator, accompanying the administrator on the convention trip, shall be borne by the administrator.

Periodic reports will be given to the board of education regarding administrator attendance at conferences, including prior announcement of intended national conferences. Ordinarily, the board of education will automatically authorize conference attendance with adoption of the annual budget, but it may, in its discretion, limit or deny administrator conference attendance as the school year progresses.

Administrative Action in Absence of Policy

If a situation demanding a decision is not covered by an existing law, policy, or by regulations, the Superintendent or the Superintendent's designee is empowered to make the decision deemed best in the Superintendent's or the Superintendent's designee's professional judgment.

Decisions made in the absence of needed policy shall be reported to the Board and the Superintendent shall develop recommended policy to deal with similar matters in the future.
